Sec. 5-107. - Domesticated chickens.

- (a) *Purpose.* The purpose of this section is to provide standards for the keeping of domesticated chickens. It is intended to enable residents to keep a small number of female chickens on a noncommercial basis while limiting the potential adverse impacts on the surrounding neighborhood. The city recognizes that adverse neighborhood impacts may result from the keeping of domesticated chickens as a result of noise, odor, unsanitary animal living conditions, unsanitary waste storage and removal, the attraction of predators, rodents, insects, or parasites, and non-confined animals leaving the owner's property. This section is intended to create licensing standards and requirements that ensure that domesticated chickens do not adversely impact the neighborhood surrounding the property on which the chickens are kept.
- (b) *Permit required.* An annual permit is required for the keeping of any domesticated chickens. Additionally, a building permit is required for the construction of a henhouse and chicken pen.
- (1) The annual permit to keep chickens is personal to the permittee and may not be assigned. In addition, the permit authorizes the keeping of chickens only upon the property described in the permit. The permittee must occupy the residence on the property where the chickens are kept as the permittee's personal, primary residence. An applicant for a permit must either own the property or have permission from the property owner to be eligible for a permit. Only one (1) permit is allowed per permittee. In the event the permittee is absent from the property for longer than thirty (30) days, the permit automatically shall terminate and become void. The issuance of a permit does not create a vested right to renewal of the permit beyond the stated term thereof.
- (2) The first permit year shall extend from the date of issuance through December 31, 2010. Thereafter the permit year shall be January 1 through December 31.
- (c) *Fees.* The fee for an annual permit to keep chickens is twenty-five dollars (\$25.00). In addition, a fifty dollar (\$50.00) fee shall be required for the building permit for the construction of a henhouse and fenced enclosure.
- (d) *Number and type of chickens allowed.*
- (1) Up to six (6) chickens may be allowed. The provisions of this section apply to all lots regardless of how many dwelling units are on the lot. In the case of multifamily residential complexes without individually owned back yards, the maximum number of chickens allowed is six (6) per complex.
- (2) Only female chickens (hereinafter "hens") are allowed. There is no restriction on domestic chicken breeds. However, fowl and poultry other than chickens are not allowed.
- (e) *Noncommercial use only.* Hens shall be kept for personal use only; no person shall sell eggs or engage in chicken breeding or fertilizer production for commercial purposes. The slaughtering of chickens is prohibited.
- (f) *Fenced enclosures and henhouses.*
- (1) Hens must be kept in a fenced enclosure at all times. The fenced enclosure must be either: (i) covered, or (ii) at least forty-two (42) inches high, in which case, all hens must be wing-clipped to prevent escape. Hens shall be secured within the henhouse during non-daylight hours.
- (2) In addition to the fenced enclosure, hens shall be provided with a covered, predator-resistant henhouse.
- (3)

A minimum of two (2) square feet per hen shall be provided for henhouses and six (6) square feet per bird for fenced enclosures.

(4)

Fenced enclosures and henhouses must be properly ventilated, clean, dry, and odor-free, kept in a neat and sanitary condition at all times, in a manner that will not disturb the use or enjoyment of neighboring lots due to noise, odor or other adverse impact.

(5)

The henhouse and fenced enclosure must provide adequate ventilation and adequate sun, shade and must be constructed in a manner to resist access by rodents, wild birds, and predators, including dogs and cats.

(6)

Henhouses shall be enclosed on all sides and shall have a roof and doors. Access doors must be able to be shut and locked at night. Opening windows and vents must be covered with predator- and bird-resistant wire of less than one (1) inch openings.

(7)

The materials used in making the henhouse and fence shall be uniform for each element of the structure such that the walls are made of the same material, the roof has the same shingles or other covering, and any windows or openings are constructed using the same materials. The henhouse shall be well-maintained.

(8)

Henhouses shall be located in compliance with the City of Knoxville Code of Ordinances, appendix B, zoning regulations.

(9)

Neither the henhouse nor the fenced enclosure may be located less than ten (10) feet from any abutting property line.

(l)

Any

denial, revocation or suspension of a permit shall be in writing and shall include notification of the right to and procedure for appeal.

(m)

Penalty. In addition to any other enforcement action which the city may take, violation of any provision of this section shall be a civil violation and a fine not exceeding fifty dollars (\$50.00) may be imposed. Each day that a violation continues will be treated as a separate offense.
